GRADUATE OF ARCHITECTURE

McBride Charles Ryan (MCR) is an Architecture, Master Planning and Interior Design Studio recognised for its multi-award winning projects across a broad range of building types and scales.

We currently have a full time opportunity for a talented and motivated Graduate of Architecture with exceptional design skills, preferably with 2-3 years' experience.

At MCR we encourage and mentor young designers within the practice, encouraging teamwork and fostering alternative viewpoints. This role will allow you the opportunity to work alongside experienced studio architects and you will be provided with the scope to utilise your creativity, skills and understanding of the delivery of innovative design.

Our ideal candidate will have excellent communication skills; have a flexible, collaborative approach with the drive and initiative to progress design concepts through concept, design development and contract documentation phases. As an office we actively engage with new 3D software and its applications. Fluency in Revit is preferred along with the Adobe Suite, Autocad, Rhino and Microsoft Office. Strong rendering skills would also be considered positively.

MCR has plans to move to an exciting new office near Chapel Street, Prahran this year.

Salary will be commensurable with experience.

We welcome your response, outlining your skills, experience and thoughts about how your abilities would add value to the MCR practice. Applicants must be eligible to work in Australia.

Email your CV, sample portfolio (PDF Max 8MB) and covering letter to mail@mcbridecharlesryan.com.au. Please quote reference MCR GRAD_18 in the email subject line.
